In the West, the Guidebook developed from the Published Personal Experiences of Aristocrats who traveled through Europe on the Grand Tour. As the Appreciation of Art, Architecture and Antiquity became ever-more Essential Ingredients of the Noble Upbringing so they predominated in the Guidebooks, particularly those devoted to the Italian Peninsula. Richard Lassels (1603-1668) wrote a Series of Manuscript Guides which were eventually published posthumously in Paris and London (1670) as The Voyage of Italy Grand Tour Guidebooks poured off the Presses throughout the Eighteenth Century.

The Modern Guidebook emerged in the 1830s, with the Burgeoning Market for Long Distance Tourism. The Publisher John Murray began printing the Murray's Handbooks for Travellers in London from 1836. The Series covered Tourist Destinations in Europe, Asia and northern Africa, and he introduced the Concept of "Sights" which he rated in terms of their Significance using Stars for Starke's Exclamation Points. According to Scholar James Buzard, the Murray Style "exemplified the Exhaustive Rational Planning that was as much an Ideal of the Emerging Tourist Industry as it was of British Commercial and Industrial Organization generally....

Following World War II, two New Names emerged which combined European and American Perspectives on International Travel. Eugene Fodor, a Hungarian-Born Author of Travel Articles, who had emigrated to the United States before the War, wrote Guidebooks which introduced English-Reading Audiences to Continental Europe. Arthur Frommer, an American Soldier stationed in Europe during the Korean War, used his Experience traveling around the Continent as the Basis for Europe on \$5 a Day (1957), which introduced Readers to Options for Budget Travel in Europe. Both Authors' Guidebooks became the Foundations for Extensive Series, eventually covering Destinations around the World, including the United States. In the Decades that followed, Let's Go, Lonely Planet, Insight Guides, Rough Guides, and a Wide Variety of similar Travel Guides were developed, with varying Focuses. ...

With the Emergence of Digital Technology, many Publishers turned to Electronic Distribution, either in addition to or instead of Print Publication. This can take the Form of Downloadable Documents for reading on a Portable Computer or Hand held Device such a PDA or iPod, or Online Information accessible via a Web Site. This enabled Guidebook Publishers to keep their Information more current....
